Intellectual Property Rights Workshop Report: 2021-22

Introduction:-

Over the years, the value of intellectual property has grown tremendously and it is now a vital element to business. The Intellectual Property Rights safeguards or acts as a binder to the creator of ideas in a particular sector or field wherein these rights bind the maker with the creation lawfully, wherein infringement can be considered unlawful.

With IPR you have the legal right to file a suit against anyone who uses your idea or logo etc without your permission, you can franchise or give copyright of your work to someone and get royalties over it.

What is IPR?

IPRS is an important intangible asset in any company. It gives a competitive edge in the market and protects from hackers and pirates. India is a fast growing economy and innovation is becoming a priority for Indian firms and the government, this innovation needs protection and for this IP is necessary.

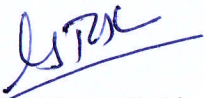

Workshop Objectives -

- To raise the level of IP awareness in universities and colleges particularly among students and scholars.
- To stimulate the creation and growth of intellectual property by undertaking relevant measures.
