**Report of Value added Course in ‘Modelling and Simulation using
MATLAB ‘
for the academic year 2020-21**

This year it was challenging to conduct the course **‘Modelling and Simulation using MATLAB ‘** due to Covid-19 pandemic situation as students were not able to come to college. Still **26** students from **F.Y.BSc Computer Science** were able to complete this course successfully. Some participant students were having laptops so they could install MATLAB software after giving demonstration online. Those who were not having laptop, they were guided to download MATLAB application in the mobile handset to run and check the output of the executed program. Whole course was conducted online using Microsoft teams and Google meet. It was new experience to conduct the whole course online but student enjoyed learning new programming skills. Their enthusiasm encouraged me as well to teach MATLAB programming. Online examination based on MCQ was conducted. Practical examination was also conducted online in which students shared their screen of given programs. Student were awarded with a certificate after the evaluation.
