			7.33	9.00	9.26	9.00	9.41	7.78
2017	Science XII	Hutatma Rajguru Mahavidalya, Rajgurunagar	58%					
2014	Class X	Mahatma Gandhi Vidyalaya, Manchar	73.20%					

ACADEMIC PROJECT

•Project Title: "Online Gift Shop"

Implementing an online Gift Shop system streamlines operations, reducing employee workload. The AI chatbot enhances customer experience, fostering increased sales through an intuitive online platform.

Front end: HTML, CSS, Bootstrap. **Backend:** SQLite3, Python, Django

•Project Title: "Event Management System"

An all-in-one event management solution, facilitating easy planning, booking, and communication. Designed for birthdays, weddings, and meetings, it streamlines the entire event coordination process.

Front end: HTML, CSS, JavaScript. **Backend:** Java, MySQL.

•Project Title: "Smart Parking System"

The parking system employs secure devices for efficient vehicle entry, exit, & fee evaluation, enhancing overall security. Essential features streamline processes, providing robust security measures for modern needs.

Hardware used: Arduino-UNO, IR Sensor, Servo Motor, Esp32.

AWARDS/ACTIVITIES

- First prize in a college-level seminar for a parking system project
- First prize in a college-level seminar for an attendance system project
- Second prize in logo making and poster presentation.
- Third prize in various dance and drama competitions.

PERSONAL DETAILS

- Date Of Birth: 30/07/1997
- Marital Status: Unmarried
- Language: Marathi, Hindi, English

EXPERIENCE

- 09/08/2023-29/08/2023 - Internship
Company Name: TAS Innovation PVT.LTD, Pune
Work Profile: Artificial Intelligence
As an AI Intern at TAS Innovation, I will embark on a journey of exploration and learning. This internship is not just about tasks; it's a chance to dive deep into the world of AI.
- 01/10/2023- 15/01/2024 - Internship
College Name: Suryadutta College Pune
Work Profile: Full Stack Developer
I championed the development of a college Attendance System, enhancing efficiency and accuracy. This user-friendly solution streamlines attendance tracking for both students and faculty.
- 20/01/2024- 20/05/2024 - Internship
Company Name: CODEMIND Technology, Hinjewadi
Work Profile: Full Stack Developer
Interns will create a matrimonial website with Reactjs (frontend) and Spring Boot (backend), using MongoDB for database management. Responsibilities include feature implementation, testing, and deployment to enhance full-stack development skills.

CERTIFICATION

- Java Full Stack Certification (FirstBit Solution)
- Python from [GUVI Geek Networks, IITM Research Park!](#)
- Python from [Indian Institute of Technology, Bombay!](#)
